

**DOON UNIVERSITY, DEHRADUN**  
**Semester final Examination, even Semester, 2016**  
**School of social science**  
**M.Sc. (Economics) 6<sup>th</sup> Sem**  
**Course: SSEI- Economic of Industrial Organization**  
 664

*Time Allowed: 3Hours*

*Maximum Marks: 50*

**Section A:- Attempt any three**

**(15 marks)**

1. a) linear and non linear pricing  
b) Tying and Bundling
  
2. a) what is anti-trust treatment of price discrimination  
b) What is static oligopoly competition
  
3. a) Assumption Of Curnout Equilibrium b) properties of Curnout Equilibrium
  
4. Explain the Berternd competition for best price decision

**Section B:-Attemp Any Three**

**(15 marks)**

1. A) Make a comparison between Berternd and Cournot.  
B) Brief about Dynamic Games Elements.
  
2. a) Credible and non-Credible Threat      B) Subgame Perfect Nash Equilibrium
  
3. A) What is Centipede Game                      B) Infinite repeated stage games
  
4. Explain the factors that complicate in reaching an agreement in Oligopoly market.

**Section C:- Attempt Any Four**

**(20 marks)**

1. a) Brief About Monopolistic Competition equilibrium  
B) What is Hotlling linear city Model
  
2. a) Differentiate between address model and Localized Competition  
B) Brief about the principle of minimum differentiation.

3. Explain the strategic behavior for product differentiation.

4. a) Differentiate between entry deterrence and entry barrier.

b) Explain the model of entry deterrence.

5. Explain the Ramsey Pricing, Peak load pricing, multi tariff pricing and Pareto Optimal Pricing for natural monopoly market.

6. what you understand by cost reallocation and welfare effect of diversification.

5.
